Moderating Quizzes in Canvas
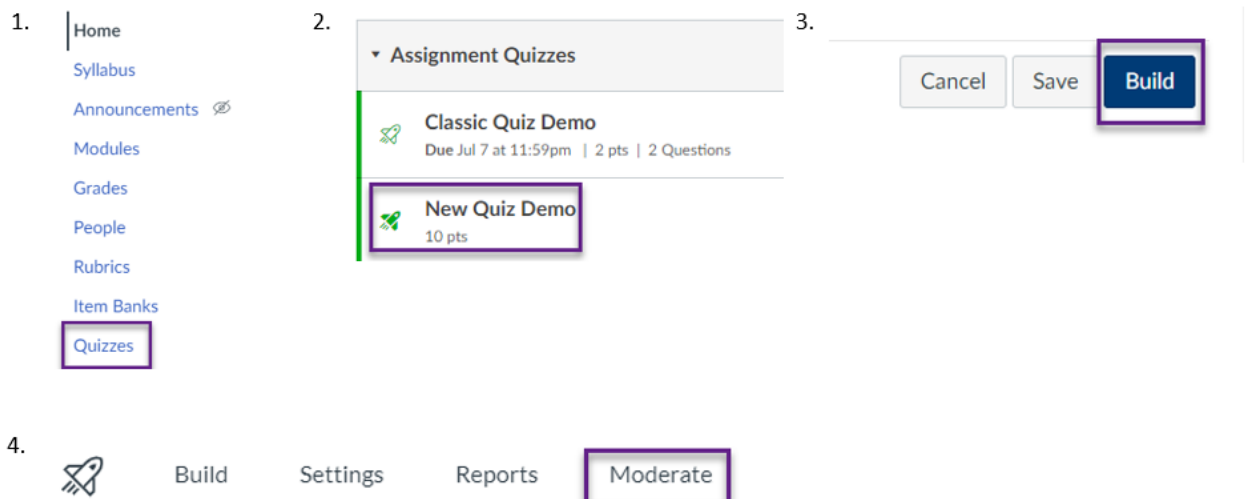

When creating quizzes in Canvas, you are given two options- New Quizzes or Classic Quizzes. Canvas will remove the Classic Quizzes feature from Canvas in August of 2022. We recommend creating your assessments using the New Quizzes feature. If you have migrated a quiz from Blackboard, this quiz will default to a Classic Quiz.

New Quizzes

New quizzes allow you set accommodations that will follow the student throughout your Canvas class. To set these, you will:

1. Open Quizzes
2. Select the assessment
3. Select "Build"
4. Navigate to the "Moderate" tab
5. Scroll to the learner and click "Moderate"
6. From the pop-up menu you can-
    a. Adjust the number of attempts
    b. Remove the time limit
   c. Give additional time
    d. Reopen a completed attempt

Classic Quizzes

Accommodations set in classic quizzes will only impact the selected quiz. Accommodations must be set for each individual quiz. To set these, you will:

1. Open Quizzes
2. Select the assessment
3. Select "Moderate This Quiz" from the right-hand menu
4. Scroll to the learner and click the pencil on the far right of the screen.
5. From the pop-up you can-
    a. Adjust the number of attempts
    b. Add extra time on every attempt
    c. Manually unlock the quiz for the next attempt
